WHAT THE AGENT DOESN'T KNOW

SCENARIO SECRET

Management knows everything. The report to HQ was **intercepted** and forwarded to the Coordinator "for execution". Rather than arrest the agent, Weyland-Yutani sends them to the **training session**, no exemption, NS-X III withdrawn: a punishment disguised as an exercise. The agent finds out on the intro screen.

The Coordinator runs the session as usual: he announces and touches the sealings following **his paper protocol sheets**. He follows company protocol, period. **Dice never change the sealings.**
