05 · BACKGROUND AND MOTIVATION — AGENT STATEMENT

I spent six years watching screens on a mining colony. I always sensed, before anyone else, that something was wrong. Weyland-Yutani's perception tests gave off-the-charts results [redacted]. The offer came the next day: **Psychic Agent**, very high salary, mission bonus. The contract covers the risks. I signed.

MISSION

Pass the training on Nostromo II, under real conditions. Then: sense the presence of **xenomorphs** aboard colony ships.
